Backend: Node.js, Express.js (Basic)
Database: MongoDB
Version Control: Git (Basic)

ACADEMIC PROJECT

Event Management System – Full Stack Web Application
GitHub: https://github.com/chitthesh/event-management

- Designed and developed a complete web-based platform to manage event details efficiently.
- Features include event scheduling, event calendar reminders, food selection, decoration planning, and event type tracking.
- Implemented both frontend and backend independently as an individual project.
- Improved data organization for event companies by centralizing client and event information.

Technologies Used: React.js, CSS, Node.js, MongoDB

CERTIFICATIONS
